

Promethean Training

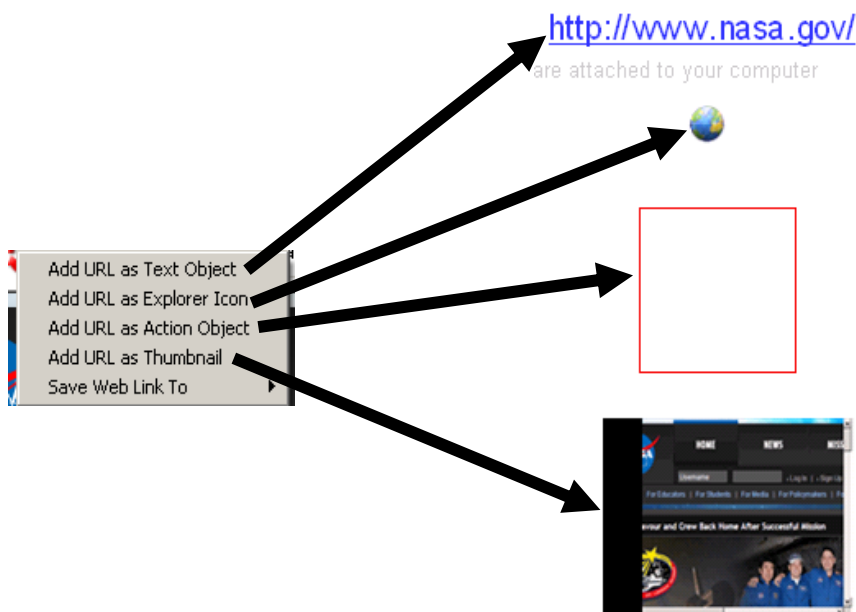

Module 5

Section 1: Web Browser

 Add the Web Browser icon to the Main Toolbox. When you click on this icon, *ACTIVstudio's web browser* will be launched (as indicated with a donut). Hover over each icon to learn their functions. The pop-up window acts just like Internet Explorer. You will see Back, Forward, Stop, Refresh, Home, Search, and Link buttons. Click on the Link button.

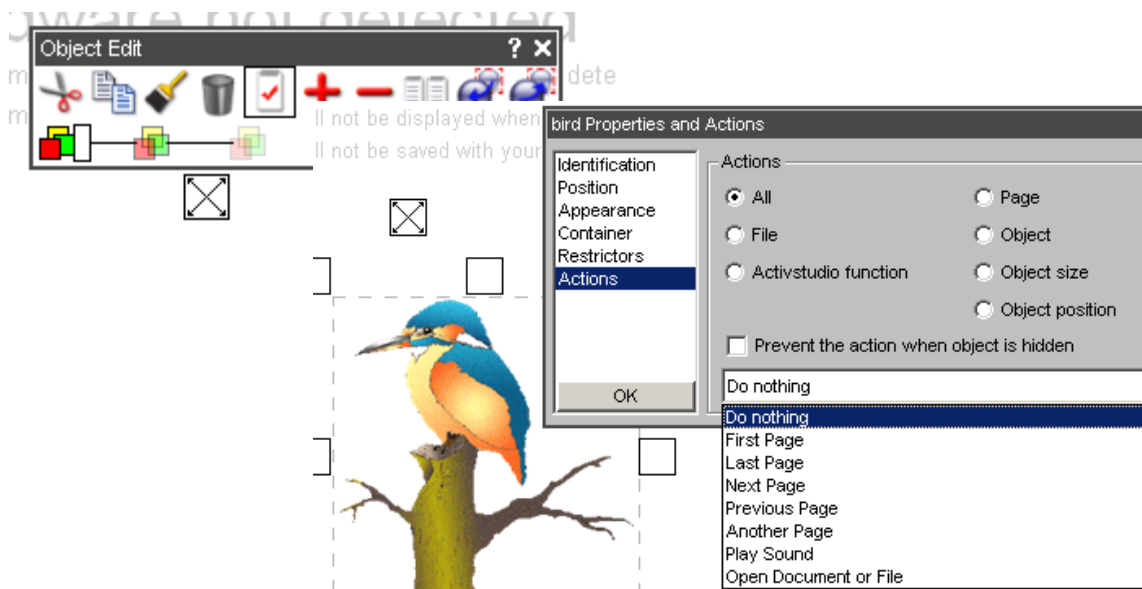

You will see you have 5 options. Experiment with each:

Close the browser. To activate the hyperlinks, be sure **Enable Actions** is on.

Section 2: Attach an Action to an Object

Attaching an action to an object enables you to add some special effects to your presentations when you click on the object.

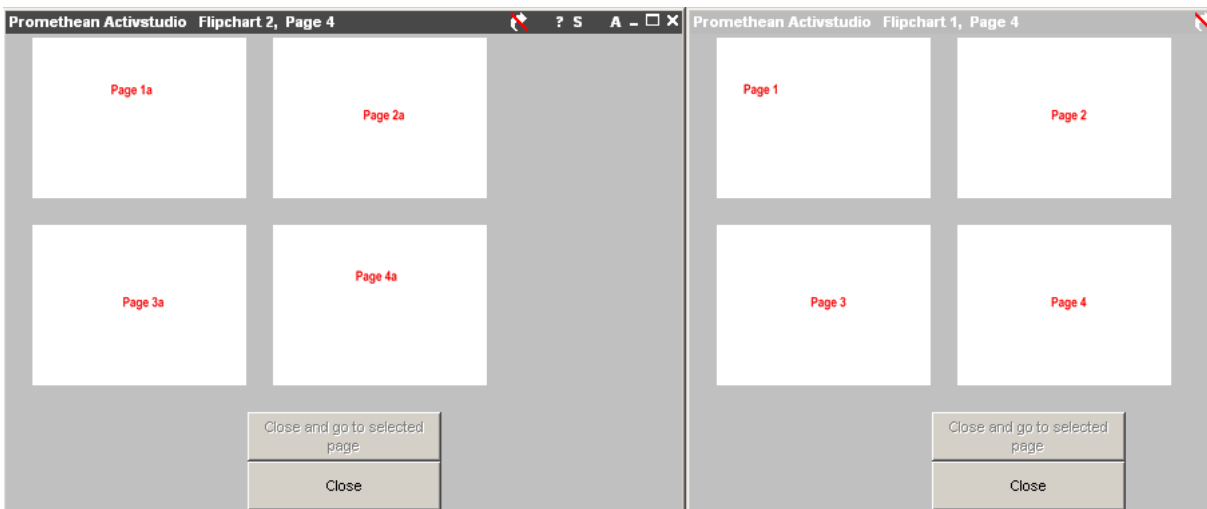

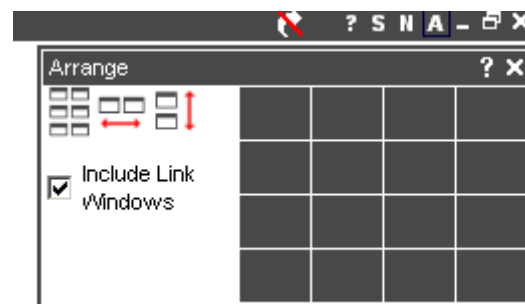

Make sure your actions are enabled to see the results of your selections.

Now when you move over the object with your Activpen, you will see an arrow next to your cursor indicating that the object has an action attached to it. When you click on the object, the assigned action will be performed.

Section 3: Organizing Pages Between Multiple Flipcharts

The easiest way to organize pages between multiple flipcharts is to go to the Presentation mode, Window Arranger, and open multiple windows, depending on the number of flipcharts you want to work with.

After opening the number of flipcharts you want to work with, put each in the Page Organizer mode. Then you have the ability to move and copy using the drag and drop method.

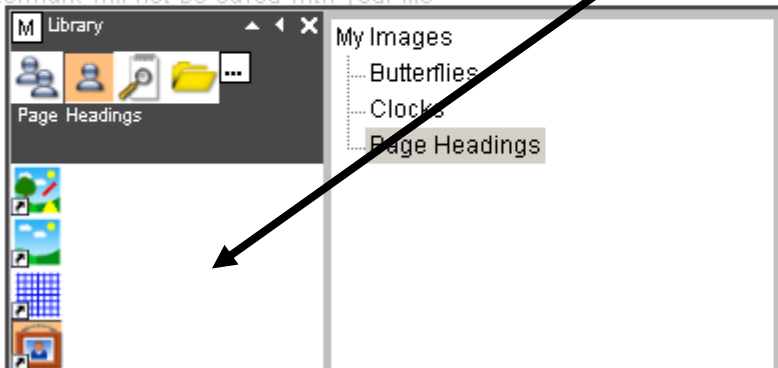

Section 4: Organizing the Resource Library

It is possible to create sub-folders within the Categories of the **MY RESOURCE** Library. This allows you to organize your resources as your personal library builds. Because there are over 30,000 items in the Shared Resource Library, you will want to build folders to store the items which you use often and want to access quickly.

- Open the Resource Library
- Go to MY RESOURCE Library
- Click on the Category where you want a folder created. Right click, select "New Folder"
- Name the category then select OK
- You will see the new folder appears under the main category as a sub-category
- To move an item to the sub-category (folder), click and drag to left column. You will see the cursor change to a bent arrow.

watermark will not be saved with your file

Section 5: Promethean Templates From the Dashboard

There is a number of page/lesson templates already included in the Promethean software. To access these, from the Dashboard, click on "Flipchart Builder."

You will find hundreds of flipchart template; expand the list by clicking on the plus sign in from of each category. You can use the full flipchart or modify it to meet your needs.

Section 6: Resource Packs

Resource Packs are free prepared backgrounds and other flipchart additions to make your lessons much more exciting and attractive. These are found at www.prometheanplanet.com. There is a specific process to download these Resource Packs to your computer. Once they are downloaded, your Resource Library will have to be reindexed. Watch the video tutorial on how to locate, download, and reconfigure your Resource Library. (The video tutorial may change web location if Promethean changes its website.) To explore the resources in Promethean Planet, you will need to become a registered user. The registration is FREE and well worth the process. As you can see below, this website has free basic professional development as well as many, many prepared resources.

RESOURCE PACKS

What Are Resource Packs?

Our FREE Resource Packs can help you bring vibrant images and graphics into your lessons.

The resource packs displayed are for Version 3 users of Activprimary or Activstudio and are available as a free download. If you do not yet have Version 3 of either program, now available for MAC and PC, be sure to [upgrade today](#).

Resource Pack Listings

For a complete list of Resource Packs, select the view that best suits your needs.

Alphabetical Listing

This listing displays all Resource Packs alphabetically.

Date Published

This listing displays all Resource Packs by publication date, with the most recent submissions displayed first.

RECENT RESOURCE PACKS

-  **Washington State Resource Pack** 14th May 2008
-  **Oregon Resource Pack** 13th May 2008
